

## Once Bitten

I MUST have watched the movie scene dozens of times: Robert De Niro standing in front of the mirror practising his tough guy act. "You want a piece of me? Want a piece?" I must have been particularly hungry when I was watching Taxi Driver the other day. All I could hear was, "You want a piece of meat? Want a piece?"

Yes, Mr De Niro. I do. I really do want a piece of meat. Preferably a succulent, melt-in-the-mouth piece of grain-fed beef tenderloin, wrapped in juicy bacon and served with a kipfler potato tart, stuffed Swiss brown mushroom and red wine veal jus.
